Ah! here it is! I'm famous now -An author and a poet!
It really is in print! Ye Gods!
How proud I'll be to show it!
And gestle Anna? what a thrill

Will animate her breast, To read these ardent lines and know To whom they are addressed.

What can the paper mean.

By talking of the "graceful brooks,
That gander o'er the green"?

And here's a T instead of R, Which makes it "toppling rill;"
"Will seek the shad" instead of shade,

And "hell" instead of "hill." "They look so-wha? I recollect "Twas "sweet" and then 'twas "kind," And now to think the supid tool For "bland" has printed "blind"! Was ever such provoking work? Tis curious, by the by, How anything is rendered blind

By giving it an eye. "Hast thou no tears"—the T's left out-"Hast thou no ears" instead; "I hope that thou art dear" is put "I hope that thou art dead."
Who ever saw in such a space

So many blunder- crammed? "Whose gentle eyes bedimmed" is spelt "Those gentle eyes be d-d!"

"The color of the rose" is "nose," "Affection" is "affliction;"

I wonder if the likeness holds In fact as well as diction? "Thou art a friend," the R is gone: Whoever would have deemed That such a trifling thing could change A "friend" into a "fiend!

"Thou art the same" is rendered "lame." It really is too bad; And here because an "I" is out,

My "lovely maid" is "mad!"
They drove her blind by loking in An eye- a process new; And now they've gouged it out again, And made her crazy, too. "Where are the muses fled, that thou

Shouldst live so long unsung,"
Thus read my version—here it is— "Shouldst live so long unhung "The fate of woman's love is thine," An H commences "fate :" How small a circumstance will change A weman's love to hate!

I'll read no more! what shall I do? I'li never dare to sendit; The paper's scattered far and wide-'Tis now too late to mend it. Oh. fam ! thou cheat of human bliss-

Why did I ever write?

From the Maysville Eagle. The Battle at Richmond.

Long before our readers will see this article they will have learned of the lamentable disaster which has befallen our arms near Richmond. From the Cincinnati papers and private sources, we have gathered a few particulars which may give some slight idea of what has occurred. When General Nelson reached Lexington, he found the forces in command the enormities have transpired, are situated of Gen. Lew. He rallied them as well as he could, and still made a brief and desperate resistance. Hearing an officer advise his men to scatter and run, he immediately cut him down with his sabre. The officers set the example, his line was broken, and he was hemmed in by the rebel cavalry. His life was saved by Major Green Clay seizing his bridle and foreing him from field. Before this he had been wounded in the groin and thigh, painfully, but not dangerously. On the way to Lexington he directed some fragments of regiments to try and hold the enemy in check at the crossing of the Kentucky river. But this they were unable to do, having lost the cannon in the retreat. On yesterday the enemy crossed the river, and last night Lexington was in their possession. It was believed at Blue Licks that an attack was made upon Paris and it is certain that there is no telegraph communication between Paris and this city. Our loss in the battle is stated at about 125 killed and 350 wounded. The number of prisoners is not known, the force having scattered in every direction. We left there about three weeks ago with the same command in pursuit of Morgan, Forrest, Stearnes & Co. After numerous marches, counter-marches

and night alarms we found Morgan, and

On the 20th inst, we camped at Huntsville, where Morgan had camped the pr vious night. On the morning of the 21st we had reveille at two o'clock, and at davlight distant. The sound of "Boots and Saddles" was listened to that morning for the last time by many. I had command of Comsome two miles from Gallatin. ### Ayer's Sarsaparilla

A compound remedy, designed to be the most effectual Alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellowcitizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints: -

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AF-FECTIONS, MERCURIAL DISEASE, DROPSY, NEU-RALGIA OR TIC DOULOUREUX, DEBILITY, DYS-PEPSIA AND INDIGESTION, ERYSIPELAS, ROSE They relieve a Congh instantly. OR ST. ANTHONY'S FIRE, and indeed the whole | They clear the Throat. class of complaints arising from Impurity of THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the time- harm any one. ly expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to Confections, they will relieve you instantly, and rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell them indispensible. You will find them at the you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this My signature in on each package. All other are pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intendthe bottle.
